Subject: Charlie Branch Spills: LD Construction and Port Arthur RV Park
Date: Sunday, September 24, 2017 11:04:05 AM

All:

I have had a discussion with Anthony Buck (TCEQ IC), he as indicated that he does not have a problem with us moving those spill costs that we are working in Charlie Branch (LD Construction, Port Arthur RV Park) to the TCEQ Mission Assignment. He wants to make sure that we can work those costs into our current Mission Assignment funding amount.

Thanks
